About GDMB

The GDMB Society of Metallurgists and Miners is the international forum for technological-scientific exchange between industry, authorities and science. It is part of the international network of mining and metallurgy of non-ferrous metals, e.g. aluminium, lead, copper and zinc.

Our members are individuals, companies, university institutes and authorities.

The GDMB organizes relevant colloquiums, symposiums and conferences, open to all colleagues in this field of professional development.

The GDMB publishing department is responsible for publishing the conference proceedings of the symposium.

Fax: +49 5323 9379-37

E-Mail: EMC@gdmb.de
Web: www.emc.gdmb.de

Postconference Tours

Several comprehensive postconference tours to base and light metal operations will be organized, focussing on Germany and the Benelux-States. Furthermore, the opportunity will be offered for preconference one-day field trips to interesting facilities and hightech factories in Germany.

Further information is available on our website.

European Metallurgical Conference
Emc 2015

**Production of Non-Ferrous Metals -
indispensable Base of Industry and Wealth**

**Call
for
Papers**

**June 14 - 17, 2015
in Düsseldorf, Germany**

Held in conjunction with

Call for Papers

Prospective authors wishing to present papers are invited to submit the title, the name(s) of the author(s) and an abstract of 250 to 300 words (in English). Authors of the selected abstracts will be notified of the acceptance of the papers beforehand. For author's guidance, please consult the guidelines in author.doc file, downloadable from www.gdmb.de, EMC area. All files must be DOS-readable.

Poster Award

There will be a dedicated poster session, at which each of the presenters will have the opportunity to outline the topic of their poster during a short time of approximately five minutes. In order to promote the presentation of posters, the Organizing Committee has decided to provide a money award to the best poster.

Important Dates

June 30, 2014: Deadline for submission of abstracts

August 15, 2014: Acceptance of papers will be made public

October 15, 2014: Submit manuscript for peer review

January 31, 2015: Deadline for final manuscript

April 30, 2015: Deadline for presenters to register for the conference

Düsseldorf – The venue of the conference in the year 2015 is going to be Düsseldorf, Germany.

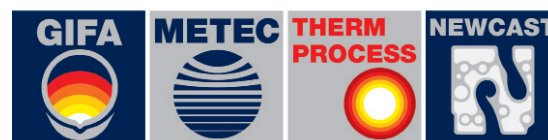

Düsseldorf with its scenic location along the Rhine river, is the capital of North Rhine-Westphalia, and is a major centre of services and trade in the heart of Europe, a bustling, modern city with a population of 570,000.

Although Düsseldorf is a very modern city, it cultivates its rhenish traditions. Near to the river Rhine it has a lively old downtown with a lot of pubs, where a special dark Düsseldorf beer – called "Altbier" – is served.

The „Königsallee“ is a famous shopping mall with a lot of elegant shops. Culturally, Düsseldorf is known for its academy of fine arts and for a lot of museums like the Museum of European Garden design or the Art Collection North Rhine-Westphalia.

Metallurgical Trade Fairs - Each participant to EMC 2015 will obtain a one-entry free admission ticket to GIFA, METEC, THERMPROCESS and NEWCAST, as part of the registration fee. In 2011 the quartet of technology trade fairs closed right on target after five trade fair days in Düsseldorf. The trade fairs achieved new records both in terms of exhibitors and visitors. 1,958 exhibitors from across the world met with 79,000 visitors from 83 countries.

The Bright World of Metals

DÜSSELDORF/GERMANY
16-20 JUNE 2015

The conference is held by invitation of the GDMB Society of Metallurgists and Miners and is particularly directed to metal producers, plant manufactures, equipment suppliers and service providers as well as members of universities and consultants.

EMC 2015 will be dedicated to the continuous efforts of our industry to meet the challenges of a globalizing world by delivering important contributions to the welfare in our future. Sustainability of the non-ferrous metals industry will be duly examined in respect to its technological, ecological and economic aspects in about 20 topical sessions, encompassing over 130 papers.

The EMC 2015 conference is scheduled to address the following main topical subjects:

- Copper
- Light metals
- Sustainable Technologies/Sustainability of Non-Ferrous Metals Production
- Precious Metals
- General Hydrometallurgy
- General Pyrometallurgy/Vessel Integrity / Process Gas Treatment
- Recycling
- Waste Effluent Treatment/Biohydrometallurgical Applications
- Process Control / Process Modelling
- Process Metallurgy
- Bridging Non-Ferrous and Ferrous Metallurgy
